# Hello.

Welcome to the probation period at Raining Vegetables!

As a new member, we want to make sure you have all the information you need to get started and feel comfortable in your new role.

To begin, please make sure you have access to our task management platform, jirra and GitHub (for engineers), which you were sent an invite to via email, and that you can find your assigned tasks. If you have any trouble accessing the platform or need any assistance, please don't hesitate to reach out to your assigned manager, who will be happy to help.

Your assigned manager and the person you will be working directly with is the founder - Mercy Nekesa.

Finally, we want to make sure you are aware of our company's rules and expectations for working. Please take a moment to review the company work structure (attached to the email), which outlines important policies and procedures, including guidelines for late submissions and other important details.

Again, welcome to the team! We look forward to working with you and seeing all the great things we can accomplish together.

Best regards,  
The Raining Vegetables team.
